Re: Lyme Disease Serology Price Increase

In response to a reagent price increase from the manufacturer, AML has raised the price for Lyme Disease Serology testing. In an effort to minimize this increase, we have converted to a comparable method. Clients will see no difference in results with the new method.

Effective October 15, 2008, the new pricing will be in place. This change affects both the [Lyme Disease Serology - Polyvalent with Reflex \(659/LYR\)](#) and [Lyme Disease Serology- Polyvalent \(4750/LYM\)](#)

Current List Price: \$22.30

New List Price (10/15/08): \$27.30
